<https://www.linkedin.com/in/gauri-jadhav-b66765357>

SKILLS

- Frontend: HTML, CSS, JavaScript, React.js
- Backend: Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, Render, Vercel, Cloudinary

EDUCATION

- ❖ B.Tech in CSE | SSIEMS Parbhani (2025)
CGPA : 7.45
- ❖ XII (State) | MES School
2024 | 83.3%

EXPERIENCE

- ❖ Virtual internship | CCA (May 2025)

Frontend Developer Intern - Duration: 1 Month -

- Worked on HTML, CSS, JavaScript and built responsive UI component
- Developed small projects including landing page, UI layouts, and interactive elements
- Improved skills in responsive design, CSS Flexbox/Grid, and GitHub project hosting

ACADEMIC PROJECTS

❖ Wanderlust - Full Stack Airbnb Clone (Deployed)

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, EJS, REST APIs, Cloudinary, Multer, Git & GitHub, Render Deployment.

- Live Project: <https://wanderlust-project-queg.onrender.com/listings>

- GitHub: https://github.com/Jadhavgau/Wanderlust_Project

Description :- Built a fully functional Airbnb-style accommodation booking platform from scratch with complete CRUD features for property listings.

- Implemented user authentication (Sign Up / Login) using secure sessions and password hashing.

- Used MongoDB + Mongoose for database models (Listings, Users, Reviews).

- Developed REST APIs for listings, reviews, and user operations.

- Integrated Multer + Cloudinary for image upload, storage, and optimization.

- Created dynamic frontend using EJS templating with responsive UI for listings and property pages.

❖ MindBridge – Mental Wellness Support Web Application

- Live Project: <https://mindbridgefrontend.vercel.app/>
- GitHub : https://github.com/Jadhavgau/mind_bridge.git
- Demo Video: <https://photos.app.goo.gl/rfvX7FyYPriJX55Z7>
- Designed and developed a web-based platform focused on mental well-being and emotional support.
- Includes features such as mood tracking, guided self-help tools, and voice-based interaction.
- Aims to help users manage stress, overthinking, and daily mental health challenges.
- Built with HTML, CSS, JavaScript (add more tech if used).

❖ Mini Project 1: Weather App

- GitHub :- https://github.com/Jadhavgau/Weather_App
- Tech: HTML, CSS, JavaScript, OpenWeather API
- Fetches real-time weather details using REST API.
- Clean UI with location-based weather and 5-day forecast.
- API integration, error handling, responsive design.

POSITION OF RESPONSIBILITY

- ❖ SSIEMS Coding club | Member (Present 2025)
 - Actively Contributed to coding sessions and technical club activities.

ACHIEVEMENTS

- Attended Kshitij Tech Event at IIT Kharagpur
- Full Stack Development Certificate
- Hashrank Certificate

HOBBIE

- Travelling
- Coding

SUMMARY

Aspiring Full Stack Developer with experience building production-ready web applications, including a full-stack Airbnb-style platform. Skilled in JavaScript, Node.js, Express, MongoDB, and responsive UI development. Actively seeking internship opportunities to apply technical skills and grow through real-world projects.
